

Dominic Counter Stool

107096

An impressive counter stool crafted from solid walnut wood. The sculpted seat and traditional design will complement transitional, contemporary and modern spaces of any size. As wood is an organic, porous material, these pieces will contain natural variation of texture and may also exhibit fine indentations and cracks. Wood pieces will also display a disparity of colour and grain, and visible knots and burls that add to the character of each piece.

Remarks

None.
